

URGENT INCIDENTS MANUAL

NO WATER

First ask the neighbors, if they do not have water, it is a problem of the company, we have to wait. If they have and we do not check stopcocks, on the floor and meters. If once the checks have been carried out there is still no water, call the technician.

NEIGHBOR'S WATER LEAKAGE

If water falls from above, go upstairs immediately and report the water falling, have them close their stopcock and report it to your technician, leave contact to arrange for the repair of the damage with your insurance or technician.

NO LIGHT

First check the differential, lower all of them and go up, first the general one, if it jumps in any specific one leave it lowered, if all of them are up and there is no light, ask the neighbor. If they don't have any either, it is the company's, you have to wait, if they have and we continue without, call the technician.

LOSS OF KEYS

Contact manager during business hours, after hours contact Soluciones Al Instante, you must pay for the service, it is the tenant's responsibility.

NO HOT WATER

Check differentials, lower them all and go up one by one, first the general one, if the heater one does not go up, it is a failure of the heater, if they hold, but still no hot water, check boiler pressure/heater power, if not, call the technician.

THEFT OF KEYS

It is essential to report it to the police so that the cost of the lock change is compensated by the insurance in some cases, otherwise it is the tenant who bears the cost of the replacement and copies of keys.

WATER LEAK

Look for the general stopcock and turn off the water, usually it is through a window in the interior patio, if it is in the bathroom or kitchen look for the stopcock in that area and close it to stop the leak and call the technician.

NOISE COMPLAINTS

Call the police if the established schedule is not being complied with; the manager cannot act in such cases.
